BCOM (General and Computer Applications 2020-21)

The syllabus for BCOM (General and computer applications) has revised during the year 2020-21, which was introduced the subjects to provide Commerce as well as computer knowledge. The new curriculum has given importance to internship programs in the last two semesters in the third year. This enables the students to have practical work experience and useful for getting easy employment.

PSO1 : This enables the students to have theoretical knowledge in financial accounting, business organization and management, business environment, IT , Banking, ecommerce.

PSO2 : The students are getting knowledge of Advanced accounting, statistics marketing, corporate accounting, cost management, business laws, income tax, GST and programming in C and DBMS for computer application students. This knowledge of various topic covered in these subjects provide theoretical knowledge and its applications known to the students in their intern ship programs.

PSO3 : The students are developed the entrepreneur and leadership abilities to become entrepreneur.
